Wool future bright says young grower

A young WA wool grower thinks the industry has a bright future after attending an Australian Wool Innovation forum held in Sydney last week.

AWI met with about 50 young producers from across the country to discuss some possible future directions.

One was Dougal Young who farms at Brookton.

He says the wool industry has a bright future, but there's a number of big hurdles to jump first.

In this report: Dougal Young, wool producer, Brookton
